### RESOLUTION ON THE REPORT ON THE WORKING OF THE CO-OPERATIVE SOCIETIES IN BENGAL FOR THE YEAR ENDING THE 30TH JUNE 1919.

#### GOVERNMENT OF BENGAL.

##### REVENUE DEPARTMENT.

###### Agricultural Branch.

CALCUTTA, THE 14TH NOVEMBER 1919.

##### RESOLUTION No. 8592.

READ—

The Report on the working of the Co-operative Societies in Bengal for the year ending the 30th June 1919.

- One of the principal features of the previous year was the strain which had been put upon societies by the low price obtained by cultivators for their jute and rice; recoveries were seriously affected and societies showed caution in advancing loans. A sharp contrast is afforded by the report of the present year under review, when better prices were obtainable

for jute and the price of rice rose to unprecedented heights. Though the Registrar in his report makes certain reservations in drawing a deduction from these facts and points out that the bulk of the societies lie in jute areas, it is significant that the rise in the price of both the rice and jute produced by the members synchronised with an increase in the financial prosperity of the co-operative societies to which they belong.

2. During the year under report the increase in the number of societies was 615, in the number of members 16,021, and in the working capital Rs. 36,34,692, compared with 557 societies, 19,538 members and Rs. 41,68,578, the increase of the previous year. That there was no greater expansion is due to the care with which applications for societies have been scrutinised, a sound measure dictated by past experience of unsound societies formed in haste and in ignorance of the principles and duties of co-operation. With the increase in societies, the number of inspectors rose from 41 to 50 and honorary organisers from 45 to 48. The number of auditors rose from 14 to 28 and two divisional auditors were appointed in the year by Government. Audit is of the first importance; and it is satisfactory to learn that a proper detailed audit is now one of the chief features of the working of the department.

3. Repayments during the year were good; but, though there was a corresponding increase in advances, some caution was still exhibited in advancing loans. The central banks advanced Rs. 32½ lakhs and recovered Rs. 23 lakhs in 1918-19 against Rs. 18 lakhs and Rs. 10½ lakhs, respectively, in 1917-18. Similarly, the agricultural societies advanced Rs. 28 lakhs and recovered Rs. 23½ lakhs in 1918-19, against Rs. 23½ lakhs and Rs. 15½ lakhs, respectively, in the previous year. Two other satisfactory features are that the amount of loans overdue to such societies was reduced by Rs. 6 lakhs and that their reserve funds were increased from Rs. 9½ to Rs. 14½ lakhs.

4. The progress of the Bengal Provincial Co-operative Federation, Ltd., which was opened in the previous year, surpassed expectation. By the 30th June 1919, 49 central banks and 8 other societies had joined it. The Federation received Rs. 10½ lakhs of the idle funds of its members for investment and made repayments to the extent of Rs. 8 lakhs; and it saved one central bank from disaster during the year under review. Of the Rs. 13 lakhs of deposits taken out from central banks at a high rate of interest it repaid nearly Rs. 4 lakhs. The assertion of the Registrar that the Federation has already accomplished the purposes for which it was formed, viz., to keep money employed all the year round by the utilisation of the surplus funds of its members and to assist them in other ways as far as possible, appears therefore to be well founded.

5. The number of central banks increased from 52 to 58, their working capital from Rs. 67½ lakhs to Rs. 82½ lakhs, and their paid-up share capital from Rs. 10 lakhs to Rs. 11½ lakhs. At present only 14 of these banks have appointed paid secretaries or assistant secretaries. The number of unions decreased from 13 to 12 in the year under review; but they are reported to be neither successful nor popular in Bengal.

6. Agricultural societies have increased in numbers from 2,067 at the end of 1915-16 to 2,857, 3,374 and 3,923 at the end of the years 1916-17, 1917-18 and of the year under review, respectively. Practically all the new societies formed during the year were of the type based on shares, a type re-introduced during the year. Many of the old societies have also now adopted bye-laws providing for shares. During the year the membership increased from 1,25,590 to 1,34,755, and the working capital from Rs. 80½ lakhs to Rs. 92½ lakhs. Much good work was done by the department in the direction of the purification of societies. Large societies of which the membership was too large to admit of the members being thoroughly acquainted with one another were split up; but the most important work of this description was the nursing of bad societies in the attempt to improve them and the liquidation of incurably bad societies. No less than 81 societies were liquidated during the year, against 29 in the previous year; and, as a result of the facilities afforded by the Bengal Public Demands Recovery (Amendment) Act, 1918, realisations in societies under liquidation have been

more than three times as much as the total in all previous years. Most of the unsoundness in the bad societies is due to the dishonesty of office-bearers ; but the hope may be confidently expressed that with the more stringent system of audit now in force, the prosecution of certain dishonest office-bearers and the awakening of the members of the societies to the fact of their unlimited liability, the day of dishonest office-bearers will be gone. It is gratifying to note that many instances of the excellent social, moral and economic efforts of the societies continue to be reported. In particular, it is significant of the ultimate practical effect of the existence of the societies that in the Gaibandha subdivision a group of societies maintain that they have not only reduced the rates of interest normally charged in the area for themselves, but for all other residents in it.

7. Considerable activity was displayed during the year in the development of agricultural non-credit and non-agricultural societies, of which the number increased from 17 and 203, respectively, in the previous year to 31 and 262 in the year under review. First and foremost may be mentioned the Naogaon Ganja Cultivators' Co-operative Society, Ltd., which has successfully ousted the *ganja* brokers. During the year it realised a profit of Rs. 3 lakhs. Its activities are now being expanded in the direction of a purchase and sale society, cattle insurance, a demonstration farm, education, medicine, relief of distress and town improvement. In fact it is making a bid, justifiable both on the grounds of efficiency and financial stability, to monopolise the local self-government of the *ganja* mahals. Owing to the importance of its work Government has lent to the society the services of Khan Bahadur Ata-ur-Rahman, Deputy Collector, as its chief executive officer. Next in importance comes the development of the weaving industry, particularly in the district of Bankura. The number of weaving societies has increased from 65 to 100, 28 of which were added in Bankura ; and towards the end of last year the organization of the Bankura Industrial Co-operative Union was effected. At the beginning of the year, however, the prospects of the union were blank owing to the fluctuations in the price of yarn and of piece-goods, but two good orders which were received about Christmas time were so well executed that they put the union on its feet. At the end of June 41 societies were affiliated to it. A credit of a lakh of rupees was given by the Federation and a guarantee against loss of a quarter of a lakh was given by Government to the union in order that it might give relief by employment to weavers during the famine in Bankura. The guarantee has not been drawn on. On the contrary a profit was made and 500 families of weavers were kept off the famine-relief works. The Governor in Council is indebted to the Revd. Mr. A. E. Brown and Professor Banerjee for the success of this scheme. Nevertheless there are still many obstacles to the development of these weaving societies in Bankura to be surmounted by co-operation. Amongst other societies may be mentioned the milk societies in the neighbourhood of Calcutta which are beginning to be reckoned with as of importance in connection with the supply of pure milk to Calcutta ; the Sundarbans Supply and Sale Society at Khepupara which cleared a profit of Rs. 6,000 over its rice transactions ; the Khelar Irrigation Society in Midnapore where the fields irrigated by the society yielded four or five times as much rice per bigha as the adjoining lands which were affected by drought ; and the Central Co-operative Anti-malaria Society which was organised at the end of the year with the object of propagating the formation of primary anti-malaria societies in the mufassal and to assist them when formed. Several eminent medical men are associated with this society.

8. The Bengal Co-operative Organisation Society has attracted to itself representative men from the land-owning, mercantile and professional classes and has completed a year of useful propaganda. The circulation of the Bengal and Bihar and Orissa Co-operative Journal, which it took over, has increased, whilst its Bengali equivalent, the "Bhandar," is much appreciated by an increasing circle of readers. Three pamphlets were published by the society during the year and arrangements were made for a course of public lectures on co-operation. As a result of a University conference

held under its auspices a committee was appointed for propaganda in the University and colleges. The society also participated in the Dacca, Mymensingh, Howrah and Khulna exhibitions. The Governor in Council is glad to notice that so much useful work has been done by the society. At the Tenth Provincial Conference of co-operative societies, which was opened by His Excellency fifteen resolutions were passed and are now under consideration.

9. The Governor in Council congratulates Mr. Donovan on the energy and enthusiasm shown by himself and his officers in the promotion of the various aspects of the co-operative movement in Bengal. His thanks are due to Professors Coyajee and Mukharji for the services rendered by them in connection with the Co-operative Journal. His Excellency in Council also records his appreciation of the help afforded by the ever-increasing number of persons interested in the movement; in particular, he is pleased to notice that several well-known zamindars are showing activity in their sympathy towards it.

By order of the Governor in Council,

M. C. McALPIN,  
*Secy. to the Govt. of Bengal.*

**RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE  
ON THE ADMINISTRATION OF WARDS', ATTACHED AND  
TRUST ESTATES IN THE PRESIDENCY OF BENGAL FOR  
THE BENGALI YEAR 1325 (1918-19).**

**GOVERNMENT OF BENGAL.**

**REVENUE DEPARTMENT.**

**Land Revenue Branch.**

CALCUTTA, THE 14TH NOVEMBER 1919.

RESOLUTION—No. 8513.

READ—

The report of the Board of Revenue on the administration of Wards', Attached and Trust Estates in the Presidency of Bengal for the Bengali year 1325 (1918-19).

**Number of estates under management.**—Four new estates were brought under the Court of Wards and one estate was released free from debt during the year. As the Jessor portion of the Janbazar estate No. 1 is now treated as a separate estate, 69 estates were under the management of the Court of Wards at the close of the year, against 64 in the preceding year.

**2. Payment of revenue and cesses.**—The total amount of revenue and cesses due to Government, including arrears, was Rs. 14,69,169. Payments amounted to Rs. 13,65,169 or 92·9 per cent. as in the previous year. The heaviest balances were again due by the Tagore estate in Bakarganj.

**3. Rent and Cesses due to Superior Landlords.**—The percentage of payment of rent and cesses to superior landlords showed some decrease, being 82·5 per cent. of the amount due, against 84·8 per cent. in the previous year. The balance of Rs. 1,12,278 out of a total demand of Rs. 6,44,581 is due mainly to non-adjustment of accounts, accumulation of petty dues allowed by superior landlords, failure of co-sharers to pay their share of dues, and certain pending civil suits.

**4. Collection of rents and cesses.**—Despite the bad monsoon and poor rice harvest of the year under report, there was some improvement in the percentage of collection on current demand, which rose from 98·4 in the preceding year to 103·5. The standard of 100 per cent. was exceeded in 40 estates. The improvement in collection was mainly contributed by the Nawab family estate in Dacca and the estates in the Rajshahi Division. The collections in the Kasimbazar estate in the district of Tippera were, on the other hand, affected by the distress in the Brahmanbaria subdivision. Elsewhere the gloomy character of the last part of the year under review is reflected in the report in only one or two instances.

**5.** The outstanding balances due to all the estates aggregated over Rs. 67 lakhs, representing 147·2 per cent. on the current demand, against 141·5 per cent. in the previous year. The balances exceeded the current demand in all the divisions. In the report of the previous year the Board anticipated that some progress could be made in writing-off fictitious or irrecoverable items, which account for at least 30 per cent. of the balances; but it is now reported that the managers show a strong prejudice against applying for their remission. In the interests of good estate management it is obvious that such items should be written off, when such a course is admissible.

**6. Civil Suits.**—The number of civil suits and certificates filed during the year for the recovery of rent and cesses increased by 1,241 and 1,600 over those of the preceding year. Out of 5,389 civil suits for disposal, 4,352 were decided, but less than one-third of the decretal amount was realised. Of the total number of 35,641 certificates for disposal 21,640 were disposed of, and 57·1 per cent. of the total claim was realised against 63·6 per cent. in the previous year.

7. **Debts of estates.**—The total liabilities of the estates under the management of the Court of Wards stood at over Rs. 58 lakhs, against nearly Rs. 82 lakhs in the previous year. The decrease is due largely to the exclusion of the claims preferred by the proprietors of the Bhawal estate against one another, a considerable amount of which has proved to be fictitious. With a few exceptions all the estates in the Presidency are more or less heavily encumbered, though considerable reductions have already been effected by good management. The indebtedness of Wards' estates has been a special subject of scrutiny and examination by the Board during the year under report, and a regular and systematic scheme for the repayment of debts is in preparation. Two new appendices showing clearly the financial position of the different estates and the progress in the repayment of debts are a marked feature of the report.

8. **Cost of management and expenditure on improvements.**—There was a slight decrease in the percentage of cost of management on the current rent and cess demand of estates, viz., from 13.2 in the preceding year to 13.1. The standard of 10 per cent., now regarded as obsolete, was exceeded in all the divisions except the Presidency Division. The estates set a good example by the good work done on agricultural, sanitary and other improvements, and in education. The total expenditure on improvements, schools and dispensaries was Rs. 1,70,158, or 3.7 per cent. of the current demand. Agricultural demonstrations in Wards' estates are now conducted mostly under the supervision of officers of the Agricultural Department, with encouraging results.

9. **Education of wards.**—The progress made in the education of wards, which is one of the special cares of the Court, was generally good. It is satisfactory to note that two of the wards were sent to the annual survey and settlement training camp and that others are being trained in zamindari management, so as to make them fit for, and useful in, their future position in life as, it is to be hoped, resident proprietors.

10. The thanks of the Governor in Council are due to the Board of Revenue for its efficient administration of the estates under the Court of Wards. The good work of the managers mentioned in the report will be noted.

By order of the Governor in Council,

M. C. McALPIN,  
*Secy. to the Govt. of Bengal.*

**MONTHLY WEATHER AND CROP REPORT OF BENGAL  
FOR OCTOBER 1919.**

**I. Character of the Season.**—During the month the rainfall was above the average in seven districts and elsewhere below the normal. The usual rainfall statement is appended.

**II. Progress of Agricultural Operations.**—Preparatory tillage for the spring crops, harvesting of early winter paddy and sowing of potatoes, oil-seeds, pulses continued. Steeping and washing of jute were completed.

**III. State of Standing Crops.**—The condition of winter paddy, sugarcane and other standing crops was generally reported to be satisfactory. More rain in the western districts would have benefitted the transplanted paddy on high lands which suffered to some extent owing to drought.

**IV. Prospects and Probable Outturn.**—The rain in both Northern and Eastern Bengal greatly improved the prospects of winter paddy. The prospects of sugarcane and other standing crops reported to be promising on the whole.

**V. Damage to Standing Crops.**—“Ufra” disease was reported to have caused some damage to standing crops in Noakhali. Some damage to transplanted paddy was caused in *char lands* in Jamalpur subdivision of Mymensingh district owing to the rise of rivers.

**VI. Condition of Agricultural Stock.**—The condition of livestock was reported to be fair. Cattle disease was, however, reported from places in the districts of Rangpur, Darjeeling, Malda, Dacca, Mymensingh and Tippera.

**VII. Failure of Pasturage and Fodder.**—The supply of fodder was sufficient throughout the province.

**VIII. Price of Food-Grains.**—During the month under review the price of common rice for the province rose in the district of Mymensingh, fell in eight districts and remained stationary elsewhere. It varied from four seers a rupee in Darjeeling, Rangpur and Mymensingh to seven seers a rupee in the Chittagong Hill Tracts.

**IX. Condition of Agricultural People.**—Distress continued to prevail in the Brahmanbaria subdivision of Tippera district. Relief measures continued.

R. S. FINLOW,

*Offg. Director of Agriculture, Bengal.*

CALCUTTA, the 17th November 1919.

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 13th November 1919.

**Summary.**—The week was practically rainless. Harvesting of winter paddy continues. Sowing of potatoes, tobacco, wheat and oilseeds is progressing favourably. The prospects of standing crops are generally reported to be hopeful. The average price of common rice for the province has fallen by about 9·43 per cent. as compared with that of the previous week.

Serial No.	Districts and subdivisions.	Rainfall.	PRICE OF COMMON RICE, IN SEERS, PER RUPEE.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches			
23	FARIDPUR ...	Nil	{ $4\frac{1}{2}$ 6 $\frac{1}{2}$ *	{ $4\frac{1}{2}$ 5 $\frac{9}{11}$ *	Weather cloudy during latter part of the week. Sowing of <i>rabi</i> crops is nearly finished. Harvesting of <i>aman</i> paddy continues. Prospects are fair. Cattle-disease is reported from Sibchar and Bhadarganj thanas. Fodder is insufficient in Gopalganj subdivision.
	Goalundo ...	Nil	{ $5\frac{1}{6}$ 6*	{ $5\frac{2}{3}$ 5 $\frac{1}{2}$ *	
	Madaripur ...	Nil	{ $4\frac{1}{2}$ 5 $\frac{9}{16}$ *	{ $5\frac{1}{4}$ 5 $\frac{9}{11}$ *	
	Gopalganj(a)	Nil	{ $5\frac{2}{3}$ 6 $\frac{1}{2}$ *	{ 5 6*	
24	BAKARGANJ (BARISAL).	Nil	{ $3\frac{7}{8}$ 6*	{ $4\frac{1}{4}$ 6 $\frac{1}{2}$ *	Weather cloudy and unseasonable. Fodder is sufficient. Prospects of standing crops are good.
	Pirojpur ...	Nil	{ $3\frac{3}{4}$ 6*	{ $4\frac{1}{4}$ 6*	
	Patuakhali ...	Nil	{ 4 5 $\frac{1}{2}$ 6*	{ $4\frac{1}{2}$ 5 $\frac{1}{2}$ ‡ 6*	
	Dakshin Shababzpur (Bhola).	Nil	{ $4\frac{3}{8}$ $4\frac{3}{8}$ ‡	{ 5 5 $\frac{1}{2}$ ‡	
25	CHITTAGONG	Nil	{ 6 $\frac{1}{2}$ 6 $\frac{1}{2}$ *	{ 6 $\frac{1}{2}$ 6 $\frac{1}{2}$ *	Cultivation of <i>rabi</i> crops is in progress. Prospects of standing crops are fair.
	Cox's Bazar	Nil	{ $5\frac{1}{2}$ † 6*	{ $5\frac{1}{2}$ † 6*	Harvesting of early <i>aman</i> paddy has commenced. <i>Panga</i> salt is selling at 8 and 9 seers per rupee both at Sadar and Cox's Bazar, respectively. Fodder is sufficient.
26	TIPPERA (COMILLA).	Nil	{ $6\frac{1}{2}$ $6\frac{1}{2}$ *	{ $6\frac{1}{2}$ $6\frac{1}{2}$ *	Prospects of standing crops are hopeful.
	Brahmanbaria.	Nil	{ $5\frac{1}{2}$ ‡ 6 $\frac{1}{2}$ *	{ $6\frac{2}{3}$ $7\frac{1}{11}$ *	Harvesting of early variety of <i>aman</i> paddy continues. Sowing of <i>rabi</i> crops is going on.
	Chandpur ...	Nil	{ $6\frac{21}{32}$ * $6\frac{5}{16}$ *	{ 5 $5\frac{3}{16}$ *	
27	NOAKHALI ...	0.05	6	6	Weather cloudy. Prospects of winter paddy are not hopeful. Fodder is sufficient.
	Feni ...	Nil	6 $\frac{3}{8}$	7 $\frac{1}{2}$	
28	CHITTAGONG HILL TRACTS.	0.06	{ 5 6 $\frac{1}{2}$ † 5*	{ $5\frac{1}{2}$ 7† 5*	Weather cloudy. Rain is wanted. Prospects of <i>aman</i> paddy are fair. Harvesting of cotton crop continues; the cloudy weather is damaging the outturn to some extent. Fodder is sufficient.

(a) The rainfall at Haridaspur, which is very near to Gopalganj, is shown here.  
 \* Burma rice.      † Local rice.      ‡ Aus rice.

J. C. ROY,  
 for Director of Agriculture, Bengal.

DACCA, the 17th November 1919.

### RESOLUTION ON THE ADMINISTRATION REPORT ON THE HOWRAH BRIDGE FOR THE YEAR 1918-19.

#### GOVERNMENT OF BENGAL.

#### MARINE DEPARTMENT.

CALCUTTA, THE 22ND NOVEMBER 1919.

RESOLUTION—No. 3632Marine.

READ—

The Administration Report on the Howrah Bridge for the year 1918-19.

THE year under review opened with a deficit balance of Rs. 4,02,944 on revenue account.

2. The income of the Bridge during the year amounted to Rs. 3,74,648 against Rs. 3,43,284 in the previous year. The total expenditure was Rs. 2,93,863, including Rs. 4,258 expended on renewals to the Bridge.

structure and repairs to the ferry landing stage at Howrah. In the preceding year the total expenditure was Rs. 4,27,195, which included an abnormal expenditure of Rs. 1,41,492 expended on renewals to the Bridge structure and repairs to the ferry landing stage at Howrah.

As in the previous year, the increase in the income was principally due to—

- (1) the receipts from the East Indian Railway traffic which amounted to Rs. 2,86,276 against their guaranteed minimum of Rs. 2,00,000 ;
- (2) the contribution of Rs. 26,000 made by the Bengal-Nagpur Railway in consideration of their passenger traffic over the Bridge ; and
- (3) the increased earnings of the two ferry steamers.

3. The renewals to the Bridge structure and repairs to the ferry landing stage at Howrah were completed during the year, the total sums spent on these works up to 31st March 1919 being Rs. 3,59,305.

The working result of the year was a surplus of Rs. 80,785 as compared with a deficit of Rs. 83,911 in the previous year, so that the closing deficit on revenue account on the 31st March 1919 stood at Rs. 3,22,159. It is anticipated that the present large debit balance will be gradually extinguished from future surpluses.

4. The number of vessels that passed through the Bridge during the year and the preceding four years is given below :—

	1918-19.	1917-18.	1916-17.	1915-16.	1914-15.
Sea-going vessels	...	...	21	60	61
Inland steamers and flats	...	2,590	2,345	2,806	2,704
Steam-tugs and steam-launches	...	914	773	886	897
Port Commissioners' vessels	...	59	39	27	39
Government steamers and flats	...	8	7	9	9
<b>Total</b>	<b>...</b>	<b>3,592</b>	<b>3,224</b>	<b>3,780</b>	<b>3,729</b>
		—	—	—	—
		—	—	—	—
		—	—	—	—

5. The total number of accidents during the year was 35 against 39 in the previous year. As the result of these one life and four boats were lost.

6. The Bridge was opened during the year on 303 occasions, viz., 51 times during the day and 252 times at night.

7. The report of Mr. Basil Mott on the type of the proposed new bridge to which reference was made in the resolution on the report for 1917-18, has been received ; but as yet no final decision has been made as this Government is consulting further expert opinion on the subject.

By order of the Governor in Council,

F. A. A. COWLEY,

*Secy. to the Govt. of Bengal.*

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 20th November 1919.

**Summary.**—During the first part of the week light to moderate rain fell almost throughout the province. It has somewhat benefited the late transplanted paddy and has greatly facilitated the growth of vegetables and other spring crops. Harvesting of winter paddy and sowing of spring crops are proceeding. The average price of common rice for the province has risen by about 1·36 per cent. as compared with that of the previous week.

Serial No.	District and subdivision.	Rainfall.	PRICE OF COMMON RICE, IN SEERS. PER RUPEE.		Character of the weather, condition of crops, etc.
			This week.	Previous week.

CALCUTTA,  
The 24th November 1919.

G. J. ST. C. SEDGLEY,  
Under-Secy. to the Govt. of Bengal.

**Statement of deaths ascertained to be due to starvation or to have been accelerated by privation for the quarter ending 30th September 1919.**

Serial No.	District.	Name	Residence.	Age.	Date.	Remarks.
1	2	3	4	5	6	7
1	Nadia ...	Sandesh Bibi...	Kodali (police-station Daulatpur).	25 or 26 years	1919. 3rd August	Death due to suicide by hanging on account of privation.
2	Murshidabad...	Pratap Konai...	Gopalganj (police-station Nabagram).	Not reported...	17th August	Death due to suicide. The man was suffering from fever for about three months before his death and was thus unable to earn money to support his family and committed suicide by hanging.
3	24-Parganas ...	Rajendra Mandal.	Chak Kendua (Mohestola police-station).	15 years ...	18th August	His father went to Manbhum leaving the son in charge of the family. The father's letters miscarried and the son in despair having been unable to support the family committed suicide by hanging.
4	Dacca ...	Sadarjan ...	Harirampur police-station.	Not reported...	31st August	Death due to suicide on account of privation.
5	Hooghly ...	Akun Mohata	Bankura district	About 45 years	12th September.	Death due to illness accelerated by privation. Died at Itachona hospital.

NOTE.—A case in Khulna is under enquiry. The statements in respect of other districts are blank.

CALCUTTA,  
The 25th November 1919.

M. C. MCALPIN,  
Secy. to the Govt. of Bengal.

**Statement of weekly gauge-readings on the rivers Ganges and Brahmaputra for the week ending 15th November 1919.**

Month and date.	Hour.	Height of surface above or below zero of gauge.	Height of surface above mean sea-level.	Height of surface above mean sea-level on same date last year.	Remarks.
1919.					
9th November	7 A.M.	15.5	15.5	13.0	Zero is placed at mean sea-level.
10th	"	15.3	15.3	12.8	The bench mark for the gauge is on a pucca pillar between the passenger ghāt and Chandpur ghāt.

### LIBERALITY OF BABU SAILAJA NATH RAI CHOWDHURY AND BROTHERS, ZAMINDARS OF SATKHIRA, IN THE DISTRICT OF KHULNA.

No. 4032M., dated Calcutta, the 27th November 1919.

From—The Hon'ble Mr. L. S. S. O'MALLEY, C.I.E., I.C.S., Secretary to the Government of Bengal, Municipal Department.

To—The Commissioner of the Presidency Division.

WITH reference to your letter No. 81Mis.-G., dated the 16th October 1919, regarding the donation of Rs. 20,000 made by Babu Sailaja Nath Rai Chowdhury and brothers, zamindars of Satkhira, towards the Satkhira water-works, I am directed to request that the thanks of Government may be communicated to them for their liberality and public spirit.

**REPORT ON THE STATE OF THE SALT MARKET FOR THE  
SECOND QUARTER OF THE YEAR 1919-20.**

**GOVERNMENT OF BENGAL.**

**FINANCIAL DEPARTMENT.**

**Separate Revenue Branch (Salt).**

No. 3300S.R.

*Dated Calcutta, the 28th November 1919.*

THE following report on the state of the salt market for the second quarter of the year 1919-20, comprising the months of July, August and September 1919, in the Presidency of Bengal, is published for general information.

2. The quantity of salt of every description cleared during the quarter amounted to 2,892,168 maunds (including 2,275,152 maunds issued under the credit system), as compared with 2,071,412 maunds (including 1,506,424 maunds issued under the credit system) in the previous quarter and 3,047,605 maunds (including 2,388,658 maunds issued under the credit system) in the corresponding quarter of the previous year. The net amount of duty levied was Rs. 39,68,466 (including Rs. 32,00,209 adjusted under the credit system), as against Rs. 24,72,946 (including Rs. 17,71,330 adjusted under the credit system) in the previous quarter, and Rs. 31,87,150 (including Rs. 23,82,659 adjusted under the credit system) in the corresponding quarter of the previous year.

3. The subjoined Table I shows in detail the importations into the Port of Calcutta and the total clearances of sea-imported salt during the quarter, compared with the figures of the corresponding quarters of the two previous years:—

**Table**

Whence imported.	1917-18.		1918-19.		1919-20.	
	SECOND QUARTER.		SECOND QUARTER.		SECOND QUARTER.

France	...	...	...	...	3	3
Total	...	1,690,341	1,616,964	2,556,721	2,657,718	2,537,252
						2,539,663*

\* Inclusive of 2,275,152 maunds of salt issued under the credit system.

Compared with the corresponding quarter of the previous year and the same quarter of 1917-18, importations were less by '8 and more by 50·1 per cent., respectively, and clearances were less by 4·4 and more by 57·1 per cent., respectively. As compared with the corresponding period of the previous year, the increased imports from the United Kingdom and Spain, and decreased imports from Port Said, Aden and Massowah, are noticeable. There were no imports during the quarter from Madras and Bombay.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter as compared with the preceding four quarters:—

Table II.

Where stored.	Second quarter of 1918-19.	Third quarter of 1918-19.	Fourth quarter of 1918-19.	First quarter of 1919-20.	Second quarter of 1919-20.

5. The figures showing the despatches of salt from Calcutta by different routes during the quarter under report will be published as usual in the *Calcutta Gazette* by the Director of Statistics with the Government of India when they are available.

6. The quantity of salt despatched during the quarter by the East Indian Railway to stations beyond Buxar was *nil* as in the previous quarter, and in the corresponding quarter of the previous year.

7. The quantity of saltpetre salt excised in the refineries of Bengal during the quarter amounted to *nil*, as compared with *nil* in the previous quarter and 138 maunds in the corresponding quarter of the previous year.

8. No information was available concerning the shipments of Liverpool salt during the quarter for the Port of Calcutta.

9. Table III shows the average wholesale prices\* per 100 maunds of salt at the Port of Calcutta during each fortnight of the quarter:—

As compared with the corresponding quarter of the previous year, the quantities admitted into bond and cleared from bond and shipboard were less by 55·4 and 9·6 per cent., respectively.

By order of the Governor in Council,

A. MARR,  
Secretary to the Govt. of Bengal.

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 27th November 1919.

**Summary.**—The week was practically rainless. Reaping of winter paddy and sowing of spring crops continue. Vegetables and other standing crops are doing well. The average price of common rice for the province has fallen by about 3.36 per cent. as compared with that of the previous week.

*N.B.*—This is an abstract of prices of the following markets.—

*Wholesale.*—Chetla Hât, Ramkrishnapur Hât, Sealdah Fish and Milk Markets, Posta Bazar.  
*Retail.*—Sir Stuart Hogg Market, Orphanganj Market, Sobha Bazar, Nutan Bazar, Raja Babu's Bazar, Bow Bazar, Jogi Babu's Bazar, Taltolla Bazar.

S. N. GHOSH,

for President, *Advisory Food Committee.*

CALCUTTA, the 1st December 1919.

## DEPARTMENT OF STATISTICS, INDIA.

## CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta block\* in certain selected articles during the six months, April to September, 1919, as compared with the corresponding period of 1918 and 1917. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

## General Summary.

**Imports.**—The imports of rice, including paddy†, into Calcutta\* by rail, river, canal, road, and sea (coastwise) during the six months, April to September, 1919, amounted to 12,009,000 maunds, as against 6,410,000 maunds in the corresponding period of the preceding year—an increase of 87 per cent. There was an increase (15 per cent) in the imports of coal and coke (47,191,000 maunds as against 41,057,000 maunds last year). The imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed an increase of 78 per cent, the total value amounting to Rs. 4,81,49,000 as against Rs. 2,70,97,000 in 1918. The quantity of indigo imported during the six months, April to September, 1919, decreased from 4,579 maunds to 2,179 maunds. The imports of raw jute amounted to 1,798,000 bales as against 2,357,000 bales—a decrease of 24 per cent. The importations of gunny bags also showed a decrease of 30 per cent (169 million bags as against 243 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) increased by 33 per cent, from 3,427,000 maunds to 4,557,000 maunds. The imports of sugar decreased by 19 per cent, from 349,000 maunds to 282,000 maunds, and those of tea by 17 per cent, from 1,564,000 maunds to 1,300,000 maunds.

**Exports.**—The exports of cotton piecegoods, foreign, from Calcutta by all routes during the six months, April to September, 1919, decreased by 5 per cent (Rs. 11,87,05,000 as against Rs. 12,50,51,000 last year). The exports of gunny bags (including the exports by sea to foreign countries) decreased from 686 million bags to 537 million bags, and the shipments of gunny bags to other Indian ports decreased from 21 millions to 19 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) increased from 2,473,000 maunds to 2,817,000 maunds, or by 14 per cent.

\* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

† One maund of paddy is equivalent to 25 seers of rice.

TABLE I

*Trade of Calcutta in certain selected articles in the six months, April to September, 1919, compared with the corresponding months of 1918.*

### LIBERALITY OF RAJA RAO JOGENDRA NARAYAN ROY BAHADUR OF LALGOLA, IN THE DISTRICT OF MURSHIDABAD.

No. 2028, dated Calcutta, the 9th December 1919.

From—The Hon'ble MR. L. S. S. O'MALLEY, C.I.E., I.C.S., Secretary to the Government of Bengal, General Department.

To—The Commissioner of the Presidency Division.

IN continuation of this department endorsement No. 1832, dated the 22nd November 1919, I am directed to request that you will be so good as to convey the thanks of Government to Raja Rao Jogendra Narayan Roy Bahadur of Lalgola, in the district of Murshidabad, for his liberality and public spirit in making an endowment consisting of certain properties and Government securities in Government promissory notes and War Loan bonds to the face value of Rs. 48,100, to be called the Rao Mahesh Narayan Roy Fund for the maintenance of the Mahesh Narayan Academy at Lalgola, and for the foundation of scholarships for students from the said school passing the Matriculation Examination of the Calcutta University in the first division, but not obtaining Government scholarships.

**RESOLUTION ON THE REPORTS ON INLAND EMIGRATION  
UNDER THE ASSAM LABOUR AND EMIGRATION ACT, 1901,  
FOR THE YEAR ENDING THE 30TH JUNE 1919.**

**GOVERNMENT OF BENGAL.**

**COMMERCE DEPARTMENT.**

**Emigration Branch.**

**CALCUTTA, THE 8TH DECEMBER 1919.**

**RESOLUTION—No. 4612Eini.**

**READ—**

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1919, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

1. The only administrative change of importance introduced during the year under review was the discontinuance of the submission to District Magistrates of a monthly list of emigrants engaged by garden sardars. The large and unprecedented increase in the number of emigrants despatched to the labour districts was the most marked feature of the year.

2. One thousand five hundred and twenty-two garden-sardars (including 353 sardarnis) were employed during the year in this Presidency as against 640 (including 190 sardarnis) in the year 1917-18. All of them worked under the control of duly licensed local agents. The number of local agents' licenses issued during the year was 6, or one less than in the previous year.

3. Recruiting operations were conducted in the districts of Burdwan, Midnapore, Bankura and Birbhum, where 2,364 emigrants were recruited during 1918-19 as against 508 in the preceding year. The largest number of emigrants went from the districts of Midnapore, Bankura and Burdwan, viz., 1,458, 701 and 146, respectively. No criminal case connected with emigration was reported during the year 1918-19.

4. The total number of emigrants from Bengal and other provinces who embarked during the year at Goalundo was 119,883 as compared with 9,808 in the previous year, the increase being attributed partly to the improved and more elaborate recruiting organisation made by the tea industry and partly to the scarcity and high prices of food-stuffs in the recruiting districts. The poor health and lowered physical condition of the emigrants and the abnormally large numbers in which they were proceeding to the labour districts resulted in a serious outbreak of cholera and influenza among them. The rush of emigrants to the port of embarkation was unprecedented during the months of January and February 1919, when the number of admissions to the Goalundo charitable hospital was highest, the number of sick emigrants seeking admission rising to 268 on the 13th February 1919. This hospital which had only 23 beds was suddenly called upon to accommodate on an average 175 patients daily. The dislocation of steamer traffic and railway arrangements aggravated the situation, the available space in the rest-houses at Goalundo being quite insufficient to accommodate the large number of emigrants detained there on account of want of space in the steamers. The difficulty was, however, overcome with the assistance of the steamer companies, the Assam Labour Board and the Surgeon-General with the Government of Bengal, by the provision of temporary extra accommodation for about 250 patients and by the engagement of additional temporary hospital staff. Steps were taken at the same time to prevent as far as possible the importation of cholera cases from affected areas in the recruiting districts and to maintain the rest-houses at the several halting places in this Presidency in good sanitary condition. These measures, together with the introduction

SUPPLEMENT TO THE CALCUTTA GAZETTE, DEC. 10, 1919. 1419

of anti-cholera inoculation at all local agencies, restored the situation at Goalundo to a normal condition by the end of February 1919. The question of more efficient control over the sanitary arrangements for emigrants in transit, and the establishment of an emigration hospital at Goalundo, were discussed at a conference held in the office of the Assam Labour Board on the 1st August 1919. Remedial measures are now under the consideration of the Board in consultation with the local Governments concerned.

5. Three hundred and sixty deaths were reported to have occurred among emigrants at Asansol, Kharagpur or Naihati on their way to Goalundo, and there were 545 deaths among 120,483 emigrants arriving at the latter station. There was no death during the steamer journey among the 40,887 emigrants who embarked for Cachar and Sylhet, but of 78,996 emigrants who embarked for Assam 332 died during the voyage.

6. Five emigrants who refused to embark were released under the orders of the Subdivisional officer, Goalundo, 13 were rejected as physically unfit for labour on tea estates, and two emigrants were repatriated from the labour districts through Goalundo.

7. In connection with the transport of labour to Assam receipts rose from Rs. 1,566 in the preceding year to Rs. 1,840, while the expenditure fell from Rs. 18,847 to Rs. 14,482.

8. The Governor in Council desires to thank the several officers of this Government, the Assam Labour Board and the steamer companies, who rendered valuable assistance in combating the outbreaks of cholera and influenza among the emigrants at Goalundo. The thanks of Government are also due to the Superintendent of Emigration, Calcutta, for his report and to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

A. MARR,  
*Secy. to the Govt. of Bengal.*

**RESOLUTION ON THE ADMINISTRATION REPORT OF THE  
COMMISSIONERS FOR THE PORT OF CALCUTTA FOR  
THE YEAR 1918-19.**

**GOVERNMENT OF BENGAL.**

**MARINE DEPARTMENT.**

CALCUTTA, THE 9TH DECEMBER 1919.

**RESOLUTION—No. 3820Marine.**

**READ—**

The Administration Report of the Commissioners for the Port of Calcutta for the year 1918-19.

**General features of the Administration.**—The great war, of course, as in the preceding four years, overshadowed all the activities of the Port Trust. The Armistice was signed seven months after the commencement of the financial year under review; but, as was to be expected, the cessation of hostilities did not immediately bring about any marked improvement in the conditions. The following figures illustrate the position:—

	1913-14. Tons.	1914-15. Tons.	1915-16. Tons.	1916-17. Tons.	1917-18. Tons.	1918-19. Tons.
I.—Net tonnage of the port ...	4,256,987	3,714,344	2,967,798	2,804,680	2,094,011	2,292,462
II.—Jetties, Imports ...	1,186,797	917,978	788,431	686,010	633,693	574,833
III.—Docks, Imports ...	613,876	700,133	570,997	444,210	363,383	482,403
IV.— " General Exports ...	1,231,589	920,659	1,054,985	1,185,159	995,112	1,097,562
V.—Docks, Coal Exports	3,017,180	2,633,805	1,610,645	1,994,528	1,014,993	1,333,285

**Income.**—The total income during the year amounted to Rs. 1,90,58,513 against the revised estimate of Rs. 1,86,33,432 and the actuals of Rs. 1,58,39,175 for the preceding year.

Under the following heads the receipts fell appreciably below the revised estimate for the year:—

	Actual. Rs.	Revised estimate. Rs.	Decrease. Rs.
Jetties ...	26,84,199	27,62,550	78,351
Tea Warehouse ...	3,16,305	3,32,300	15,995
Petroleum Wharf ...	4,01,770	4,12,670	10,900

This decrease was more than counterbalanced by increases under other heads, the principal of which are the following:—

	Actual. Rs.	Revised estimate. Rs.	Increase. Rs.
Rentable lands and buildings ...	8,84,119	8,67,050	17,069
Railway ...	16,86,772	16,02,900	83,872
Port ...	4,48,344	4,32,500	15,844
Special war surcharge ...	52,06,535	50,00,000	2,06,535

**Expenditure.**—The expenditure on Revenue Account amounted to Rs. 1,84,14,423 against Rs. 1,56,29,349 in the previous year and an estimate of Rs. 1,81,76,980 for the year under review.

The chief items of expenditure which appreciably exceeded the budget estimate were under the following heads :—

	Actuals.		Estimate.	Increase.
	Rs.	Rs.	Rs.	
Control	...	...	10,92,744	10,42,925
Jetties	...	...	9,67,201	9,39,548
Inland Vessels Wharves	...	...	2,09,266	1,69,592
Port	...	...	7,11,731	6,84,408
Port Approaches	...	...	10,00,535	9,14,952
Wet Docks	...	...	30,22,432	29,04,570
Ferry Service	...	...	3,68,616	3,45,226
				23,390

**Jetties.**—The tonnage handled at the jetties amounted to 574,833 against 633,693 for the year 1917-18, and the total earnings of traffic at the jetties were Rs. 23,91,512 against Rs. 13,52,222 for the preceding year. Although there was a decrease of 58,860 tons in the weight of imports, there was an increase of Rs. 10,39,290 in revenue, Rs. 8,61,564 of which was due to heavy receipts from wharf rent, chiefly on iron, which, owing to market conditions, the importers allowed to lie on the jetty premises. The other items which contributed to the increased revenue were medicines, oilman's stores, sugar, hardware, machinery, rice and miscellaneous articles. On the other hand, the decreased earnings under glassware, cement, piece-goods, tea shooks and unclassified case goods showed a falling off in imports.

**Docks.**—During the year 790 vessels entered the docks as against 840 vessels in the previous year. Of these the number under the head "Hired transports and Royal Indian Marine vessels" was one against 88 in the previous year. The total imports and exports traffic including coal in tons at the docks were 482,403 and 2,430,847, respectively, against 363,383 and 2,010,105 in the preceding year. The increase of tonnage of imports over that of the preceding year was owing to heavier importations of sugar, rice and wheat, while to the increase in exports coal contributed 318,292 tons and wheat, seeds, rice, jute and manganese ore made up the balance.

**Petroleum Wharf, Budge-Budge.**—The total number of vessels that were berthed at the Petroleum wharf in 1918-19 was 114 against 106 in the preceding year; but there was a decrease in the number of vessels bringing kerosine oil, the actual figure being 65 in 1918-19 against 76 in 1917-18. The total revenue of the dépôt was Rs. 4 lakhs as against Rs. 3.93 lakhs for the preceding year, representing only a nominal increase of Rs. 8,629.

The installation for the storage of petrol in bulk was completed early in June 1918.

**Tea warehouse.**—The volume of tea traffic dealt with at the warehouse was some 8.6 per cent. less than in the preceding year. The receipts amounted to Rs. 3,16,305 against Rs. 4,59,796 in the previous year.

**Ferry service.**—Thirteen vessels, including two Howrah Bridge ferry steamers, were at work during the year. The total number of passengers carried in the ferry steamers increased with a corresponding increase in the earnings.

**Rates and charges.**—During the year the following were the more important changes in rates and charges made by the Commissioners :—

- (1) the introduction of an all-round rate of one-half pies per gallon as wharfage on petrol in bulk and in cases imported at Budge-Budge instead of 2 annas per ton of 20 drums ;
- (2) the introduction of a terminal charge of 12 annas per ton on goods received at or despatched from the docks and jetties other than ocean-borne traffic ; and
- (3) the imposition, as a temporary measure, to expedite deliveries, of a penal rate of rent on iron landed at the jetties.

**Navigable channels.**—During the year the dredger "Balari" worked on the Eastern Gut bar, while the dredger "Sandpiper" was mainly engaged on the Moyapur Bar. The improvement effected in the river channels by dredging was generally maintained, and there was a steady increase in the number of deep draft vessels leaving the Port and a reduction in instances in which vessels were neaped.

**Night navigation.**—The restriction of navigation by night of inward bound vessels between Mud Point and Saugor was removed. This step was of great importance to the shipping as it completed the arrangement for both inward and outward navigation by night between Mud Point and Sandheads.

**Channel buoys and lights.**—During the year all buoys, including gas buoys and moorings, were examined and repaired when necessary.

The working of the automatic lighted semaphore at Phuldobi gave satisfaction. The semaphore is worked by an instrument which indicates automatically the rise of tide at night ; and the inventor of the apparatus, Mr. H. G. Reaks, River Surveyor, received from the Commissioners a bonus of Rs. 15,000 for its use by them.

**Capital works.**—The chief capital works that were in progress during the year were :—

- (a) the river-side berths at Garden Reach ;
- (b) the reclamation work of diversion roads in connection with the new Dock scheme ; and
- (c) the remodelling scheme at Budge-Budge, including bulk petrol dépôt.

**Capital account.**—The capital account closed with a credit balance of Rs. 49.43 lakhs against Rs. 43.82 lakhs for the preceding year. The total liabilities of the Trust on Capital Account at the close of the year amounted to Rs. 10,27,80,448, while the total assets were Rs. 14,66,53,794.

In addition to these assets, the Commissioners have at their disposal three other funds accumulated out of revenue which constitute an important asset of the Trust. These are the Revenue Reserve Fund, the Vessels' Replacement Fund and the Fire Insurance Fund. The total amount at credit of these funds on the 31st March 1919 was Rs. 71.39 lakhs.

The total expenditure on capital works was estimated at Rs. 11.86 lakhs.

SUPPLEMENT TO THE CALCUTTA GAZETTE, DEC. 10, 1919. 1423

---

**General.**—During the year 39 general meetings of the Commissioners and 16 Committee meetings were held. Mr. S. C. Williams was Vice-Chairman to the Commissioners from 1st April 1918 to 19th February 1919, when he proceeded on combined leave for nine months. Mr. J. T. McCloughin, Traffic Manager, officiated as Vice-Chairman for the remaining period of the year.

The Governor in Council desires to express his regret at the death of Mr. John Scott, who for over nine years held the post of Chief Engineer of the Trust and to thank the Commissioners, the Chairman, Mr. Stevenson-Moore, c.v.o., i.c.s., and the Vice-Chairman Mr. S. C. Williams for their successful administration of the Trust.

By order of the Governor in Council,

F. A. A. COWLEY,

*Secretary to the Govt. of Bengal,*
